Geology Field Trips 2023/24:

www.wega.org.uk/wega-field-trips

<http://bristolnats.org.uk/geology/>

<http://www.bathgeolsoc.org.uk/>

Book: field@bathgeolsoc.org.uk

Ideas for Trips and Leaders are welcomed.

WEGA now joins with Bristol Naturalists and Bath Geological Society for field trips. Details of any proposed trip, along with contact details, will be forwarded by email.

WEGA members are covered, on a group basis, by Public Liability Insurance and for member-member injury. Personal Accident cover should be individually obtained, if required. Participants on our field trips are required to read, sign, and follow our excursion safety information {available on the website and prior to an excursion.

The Group's aims are:

To promote a wider interest in the science of geology through organised lectures, field excursions and social activities.

To provide a link between the amateur, the student, the teacher and the professional geologist.

To foster interest in geological sites within the area with a view to their study and wise conservation.

To establish and maintain good relations with organisations that have a common interest.

WEGA's History and the University of Bristol

WEGA was founded as an off-shoot of the extra-mural classes of the Earth Sciences Department of the University of Bristol, with the inaugural meeting held in October 1975. There was great support for WEGA from many members of the Geology Department staff at that time and we continue to have close relations with the Department. Now that the Department has stopped its formal extra-mural activities, WEGA is very well placed to engage with amateur geologists in the local region.
